*Credit Card Identification Number (CID)

A credit card Identification Number is an added safeguard for your credit card purchases. Depending on the type of credit card you use, it is the 3- or 4-digit number printed on the back or front of your credit card.

American Express

Your identification number is the 4-digit number found on the far right on the front of your credit card

Visa

Your identification number is the 3-digit number found on the back of your credit card near the signature panel.

MasterCard

Your identification number is the 3-digit number found on the back of your credit card near the signature panel.

If your credit card does not show an Identification Number, you are not required to enter one.
